Woodlake Golf Club was built in 1972 and designed by Desmond Muirhead. Golfers will depend on their accuracy in order to challenge the narrow fairways, multiple water hazards and well-protected greens.

The course has multiple water hazards, hilly terrain, and some of San Antonio's most beautiful views all which make Woodlake a challenge for the seasoned golfer and a beauty to behold for the novice. Woodlake has been awarded Golf Digest's "Places to Play" every year since 2004.

Woodlake Golf Club has hosted 5 PGA Tour events (Texas Open) from 1972 thru 1976. It was in 1973 when Ben Crenshaw won the Texas Open on his first attempt as a Professional Golfer. Woodlake has also hosted other prestigious qualifying events such as The USGA's U.S. Public Links in 2003-2006, the U.S. Amateur qualifying in 2004 and the U.S. Mid Amateur in 2005.
